

ACTIVITY BUS TRANSPORTATION INFORMATION

Southern York County School District offers transportation for all students participating in after-school activities. The District runs two activity busses – one East and one West. Please note that the bus does not stop at regular bus stops. On the reverse side you will find a list of the stops provided. Each stop is numbered. The school is required to assign a specific stop for each student. If you plan to have your student use the activity bus for transportation home, please discuss with your child which stop they will be using. They will need to know that number when signing up for the bus. The activity bus schedule with stops is located in the main office and also on the district website, under Departments/Public Information and Student Transportation (<https://www.sycsd.org/Page/219>). In order to ride the activity bus, your child will need to fill out a Google Form (available in their Team Google Classroom or via Team Newsletter) and submit it by 1:30 pm the same day they are riding the bus. The link to the form has been provided to each student on August 27, 2020. Please call the main office at 717-235-4811 ext. 3501 if you have any questions. Should an immediate safety concern arise, please contact our transportation office at 717-235-4811 ext. 7350 from 7:00 a. m. to 4:00 p.m. or our bus depot after 4:00 p.m. at 717-227-0477.

Thank you.
