Superintendent

Dr. Kimberly E. Hughes
Director of Curriculum & Instruction

Mrs. Susan M. Green
Chief Financial & Operations Officer
Board Secretary

Dr. Brendan G. Rogers
Director of Special Education

April 16, 2021

Earlier this school year, the Southern York County School Board asked the District administration to form a committee comprised of various community stakeholders to study the District's current Native American logo. This committee engaged in countless hours of discussion, research and analysis on this topic, as well as solicited input from current and former District students. The committee's hard work culminated in a written report which was presented to the School Board, and made available to the public through the District's website.

At last evening's public meeting, the School Board voted to retire the District's current Native American logo. As part of that decision, the District administration was tasked to form a committee to determine a fiscally responsible timetable to replace the existing logo throughout the District. This transition will take time, particularly with any changes made to school facilities which would take place as building renovations or construction occur. The District is excited about the development of a new logo, and intends to actively seek student input in its design and development.

The School Board wishes to thank the committee for its work and thoughtful insights regarding the District's logo. Committee members entered into this study in a reflective, problem solving manner with a goal to understand other perspectives. The committee's full report can be found [here](#).

As the District moves forward as one Warrior Family, we will continue to be strong, inclusive, and empathetic while making a difference in the lives of every student, one Warrior at a time!

The Southern York County School District, through a cooperative effort with the family and community, will provide a quality learning environment that promotes character, fosters responsibility and challenges students to achieve their potential.
